

**REVOLUTION**  
CONCRETE GRINDING & POLISHING

## Introduction

At Revolution Concrete Grinding & Polishing we specialise in quality polished concrete finishes, with well over 10 years experience in the industry we pride ourselves on quality & customer satisfaction.

Polished concrete is fast becoming the must have flooring option for residential, commercial & industrial projects. HiPERFLOOR developed by Husqvarna is a premium finish for concrete & is a truly unique green flooring solution.

Here at Revolution you can rest assure our work excels the highest quality standards. We're certified contractors for HiPERFLOOR, one of only a hand full in Victoria with the backing & support from Husqvarna Australia, Our machinery is the best available on todays market.

We can create a floor to suit your individual needs & have the knowledge & expertise to produce a product & service that everyone will be amazed with.

## HiPERFLOOR & its benefits

- HiPERFLOOR is the smart choice to reduce environmental impact. The process can transform existing or new concrete substrate into a beautiful wear resistant floor. The HiPERFLOOR process incorporates the use of products that cause very little environmental stress or waste.
- HiPERFLOOR is a mechanically polished smooth finish, it's done with resin bond diamonds, which eliminates any dust trapped in the finish unlike a topical coating.
- HiPERFLOOR is a truly unique green flooring solution it's low maintenance & is extremely easy to clean there's no need for any harsh chemical's during cleaning. With Husqvarna's ph neutral cleaner you can rest assure you are doing your bit for the environment.
- HiPERFLOOR enhances the beauty, strength and abrasion quality's of natural concrete & is scratch resistant as well as being stain resistant to things like red wine & coffee.

- HiPERFLOOR is a non-yellowing product & will not de-laminate, flake or peel like most topical coatings can.
- HiPERFLOOR reduces lighting energy requirements as well as positively impacting the visual space, at revolution concrete grinding & polishing we can tailor a sheen level to your desire.
- HiPERFLOOR's life cycle is very cost effective compared to all topical coatings like epoxy & solvent based polyurethane, water based products & also other flooring options such as carpet, vinyl & tiles.
- Unlike other products, HiPERFLOOR can handle heavy traffic during & as soon as its completed. If for some reason the floor gets damaged HiPERFLOOR can be repaired with minimal interruption unlike other products.
- HiPERFLOOR is a high quality finish & is used on commercial, industrial and domestic environments.
- Once complete Husqvarna can come on-site & certify your floor so you can rest assure you are receiving the full benefits of a superior HiPERFLOOR finish with first class support and results from a premium brand with premium service & a 7-year guarantee.

## Revolution External Finish

Revolution External Finish - it's the perfect solution for outdoor concrete surfaces such as: alfrescos, pool areas, decks, paths & driveways. Our external finish is a beautiful non slip finish that feels great underfoot unlike some exposed aggregate can. It's a surface that serve's a purpose & at the same time looks amazing. After the concrete has been ground we then start our refined process. The end result is a unique, quality, low maintenance non-slip surface that is durable & will last a lifetime in the elements.

## Specialised concrete from **BURDETT'S**

Already industry leaders in Victoria over the past 40 years for bulk sand, soil & stone Burdett's recognised the need for a specialised concrete plant for Melbourne's South East. With access to the best Aggregate's available Burdett's has a huge range of quality specialised concrete mix's to choose from.
